

GREEN•SOL

HA-12

APPLICATION RATE: One quart/acre plow down or one pint/acre foliar. Generally HA-12 may be applied by any equipment or technique (ground or air) that delivers the desired amount of product to the desired target area. The product combinations, such as liquid fertilizers, etc., with which it is combined will largely determine the most desirable application technique, and equipment choice.

COMPATIBILITY: Generally HA-12 is compatible with most fungicides, fertilizers, herbicides, insecticides, and defoliants. When compatibility is unknown, always use the standard quart jar method of determining compatibility prior to tank mixing.

CAUTION: When applying HA-12 with aqua ammonia solutions, there is the possibility of a pressure buildup in sealed application equipment. Apply HA-12 in combination with aqua ammonia solutions only in open or properly vented application equipment.

NOTICE: It is the nature of all concentrated humic acids to have some sediment when unagitated for prolonged periods of time. ALWAYS SHAKE OR STIR WELL BEFORE USE.

KEEP CONTAINER TIGHTLY SEALED WHEN NOT IN USE.

WARRANTY DISCLAIMER

The manufacturer expressly warrants that this material conforms to the chemical description on the label, which warranty is in lieu of warranties of merchantability, fitness for particular purpose or other warranties, express or implied, arising by law or otherwise. The exclusive remedy available for breach of this warranty, whether or not occasioned by the manufacturer's negligence, shall be replacement of the non-conforming goods FOB the manufacturer's nearest facility producing this material. The manufacturer disclaims all liability for consequential, special or indirect damages and shall not be held responsible in any manner for any economic loss, personal injury or property damage, or any other type of loss resulting from the purchase, handling, storage or use of this material, and in any event, shall not be liable for damages in excess of the price of this material. By accepting and using this material, the buyer is deemed to have understood and accepted these conditions.

CONCENTRATED LIQUID HUMIC ACID

Humic substances contain carboxyl, phenolic hydroxyl, and carbonyl functional groups which make these substances chemically active.

- **5 GALS. (55.0 LBS.)**

Manufactured for:

GREEN•SOL INCORPORATED

**PO BOX 2696
TUPELO, MS 38803**

FOR USE ON THE FOLLOWING CROPS AND IN THE FOLLOWING APPLICATIONS:

- **FIELD CROPS**
- **VEGETABLES**
- **SEEDBED PREPARATION**
- **PLANT CUTTINGS/TRANSPLANTING**
- **ESTABLISHED ORNAMENTALS**
- **GREENHOUSE SPRAY SOLUTION**
- **DIRECT SEED APPLICATION**
- **NURSERY STOCK**
- **LAWNS AND TURF**
- **RECLAMATION AND ESTABLISHMENT**
- **GROUND COVER**
- **ESTABLISHED SOD FARMS**
- **DRY FERTILIZER APPLICATIONS**
- **SIDE DRESS/PREPLANT APPLICATION**

CAUTION: KEEP OUT OF REACH OF CHILDREN:

Harmful if swallowed. Avoid contact with eyes, skin, or clothing. In case of contact with eyes, flush for 15 minutes with copious amounts of water.
