

COTTON TEST # 102

Treatment : The treated cotton was treated with 1/2 of the consultant's recommended rate of Mepiquat Chloride along with a matching rate of Sul 15 Plus.

Control : These areas received the consultant's full recommended rate of Mepiquat Chloride.

The combination of Mepiquat Chloride and Sul 15 Plus yielded an average lint increase of 80 lbs of lint to the acre for an input of \$3.50 an acre. At \$0.50 lint, this represents a return of \$40.00 an acre.
